

GENERAL INFORMATION ABOUT THE PLACE OF THE CONFERENCE

Three beautiful cities located on the Polish coast: Gdańsk, Gdynia, Sopot form the complex called Tri City.

GDAŃSK

The thousand-year-old city Gdańsk is considered as the most monument-abounding city of the „Baltic Europe”. Gdańsk is the Polish maritime capital, also known as world capital of amber. Like many of Poland's fine cities, Gdansk can boast a rich cultural heritage. The city and its personality reflect its colorful past and the many cultures which have shaped its identity in its monuments of sacral, middle-class, military and port architecture. Today, Gdansk is one of Poland's cultural powerhouses with a score of festivals, museums and galleries.

SOPOT

Sopot has a great geographical location – lying between the beautiful woods of the TriCity Landscape Park, and the numerous sand beaches of the Bay of Gdańsk. Sopot is known for its sanatoria and countless artists and tourists, who visit the city especially during summertime. Wooden Pier in Sopot is the longest wooden pier in Europe. During summertime, for a small fee you can enter the pier, and admire the coastline.

GDYNIA

Gdynia is a young, but quickly expanding harbor city, offering many tourist attractions as well as splendid shopping opportunities and a lot of entertainment. The city was founded as a Polish harbor in 1926. Because of its unusual location, you will easily catch great views of the sea and beautiful scenery, and also find long sidewalks, beautiful waterfronts, marinas and yacht clubs.
